

# What To Expect When You're Expecting... A Window Cleaning

- 
- We will give you a time slot for our arrival. Usually it will be between 30 minutes and an hour.
- 
- If you will be getting an interior window cleaning, please move heavy objects away from under windows (beds, dressers, couches, desks, etc.).
- 
- We are very careful inside your house. However, if there is something that cannot be replaced under a window, it may be a good idea to move it away from any potential splashes.
- 
- We don't want to track anything into yours or our next customers' homes. That being said, if you have a pet, please try to pick up any "land mines" in your yard within 6' of a one story house and 10' of a two story house.
- 
- If you have any concerns about a particular window, please let us know ahead of time.
- 
- Window cleaners are just undercover window inspectors. If we find something that we feel you may want to address, we will inform you.
- 
- We try to keep a directory of contractors that we trust to match our work ethic and quality on hand. If you need a recommendation for any other service, feel free to ask.

**We can't wait to work with you!**

**-D&K**
